

## Business Law

Business law is a cornerstone of Lawson Lundell's practice. We are recognized as one of the leading business law firms in Western Canada, providing a full range of advice and services to business clients. Within the business law grouping, significant areas of expertise include commercial law, mergers and acquisitions, corporate finance and securities, and private equity. We have expertise in a number of areas including competition law, construction, corporate governance, franchising, fund formation and administration and public-private partnerships, as well as in the related areas of banking and debt financing, insolvency, pensions and tax.

We serve clients across most industry sectors. Visit our Industries page to see our services offered to particular industries. Other industries with which we have extensive experience include aviation, communications, manufacturing, retailing, and transportation, including railway and operations.

A depth of experience working for all types of business organizations, local, national and international, has equipped us well to help clients deal with the ever changing landscape they face, and with the particular difficulties of the current climate. To co-ordinate our services in these troubled times we have formed a new Financial Recovery Group to assist both companies whose suppliers and customers may face liquidity problems and companies which themselves have financial difficulties.
