

Technology Associate, 3 - 6 year call
Vancouver, BC, Kelowna, BC or Calgary, AB

Lawson Lundell LLP is a leading full-service business law firm with offices in Yellowknife, Vancouver, Kelowna and Calgary, known for its practical and strategic approach to legal and business problems. Our firm and lawyers have received national and international recognition in numerous legal directories and publications.

We are seeking a hands-on mid-level corporate commercial associate with a focus on technology matters. The firm's clients generate significant work in a variety of commercial contracts with licensing, intellectual property, privacy and data security, and other technology-focused issues—you will be expected to work on these types of matters.

You will be assisting members of our dynamic Technology Group and work with a myriad of clients from public and private technology companies at all stages of development, including those in the digital technology and data sectors, pension funds, public utilities, government, not-for profits, or companies in the natural resources, life sciences and infrastructure sectors, as well as those spun out from entrepreneurship and tech transfer programs at Canadian universities, among others.

You will receive dedicated mentorship from senior lawyers and will be supported to build connections with lawyers from the firm's other offices. You will also enjoy a large degree of responsibility and independence in this corporate commercial practice. The position offers practical, but challenging work with clients.

The successful candidate can work in our Vancouver, Kelowna or Calgary office. This position would ideally suit someone with mid-level experience who enjoys business development activities. A proven record of community involvement would be a strong asset for this role.

Interested candidates are encouraged to submit their application to Jennifer Vermiere, Director of Professional Development at jvermiere@lawsonlundell.com. We thank all applicants for their interest and will contact those with whom we wish to schedule an interview.
